

APPROVAL in PRINCIPLE

At the request of:

OCEANS OF ENERGY

BUREAU VERITAS MARINE & OFFSHORE SAS, acting within the scope of its general conditions^(*), declares hereunder that the design of the:

Offshore Solar Farm System

is **Approved in Principle**, with respect of the aim of BV NR445 - Rules for the Classification of Offshore Units, and in the conditions stated in ANNEX 1.

The present design approval is referring to the general options chosen by the designer, as described in the documents listed in ANNEX 2.

The validity of this approval may have to be reconsidered, in case of any major modification likely to invalidate the principles shown on these documents. The approval would become null and void should BUREAU VERITAS not be kept informed of such modifications.

Prior to the classification and/or certification of a Unit, all relevant drawings, calculation notes, test reports and other documents required by the Rules or necessary to address the technical requirements listed in Annex 3 are to be submitted for review, with the aim to issue a Design Approval certificate.

Issued at Paris La Défense, on 02 08 2022
